We are resolved that our gender pay gap does not stem from paying men and women differently for the same or equivalent work; but is instead the result of the roles in which men and women work within the organisation - and the industry more widely - and the salaries that these roles attract. To ensure we are providing the best possible opportunities for all of our members of staff, we passionately promote the following:

- A robust recruitment process within which every applicant is assessed against a competency-based system. All appointments are made solely based on the specific competencies being demonstrated.
- A strong performance management scheme which supports all individuals to achieve their potential and aspirations. This includes our own developed IMI accredited qualifications, which is open to all individuals within the company.
- A comprehensive school strategy, to demonstrate our commitment to ensuring that the motor industry is an understood and attractive career proposition for all students. This includes offering an uncapped number of work experience placements annually.
- A dedicated Learning and Development team, who provide a suite of workshops and individual mentoring and training.
- A fair and equitable pay scheme for all employees, including fixed bandings for core roles. Pay is decided upon the evaluation of each job role and independent market analysis, to ensure we are competitive with our remuneration. We also recognise fair and equitable pay reviews for all employees, based upon acquisition of new skills and accreditations.

Vindis Group (F Vindis & Sons Bedford Ltd) is unwaveringly committed to the principle of equal opportunities and equal treatment for all employees, regardless of sex, race, religion or belief, age, marriage or civil partnership, pregnancy/maternity, sexual orientation, gender reassignment or disability. We have a clear policy of paying employees equally for the same or equivalent work, regardless of their sex (or any other characteristic set out above).
